Job ID
REQ-10015568
Sep 11, 2024
Czech Republic

Summary

Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

The purpose of this role is to manage and coordinate on-time and high-quality delivery of parallel projects in the Lean Digital Core (LDC) program and their intra & inter program dependencies consistently and within budget.

#LI-Hybrid

About the Role

Your key responsibilities:

Your responsibilities include, but are not limited to:

- Coordinate parallel project delivery activities within LDC
- Ensure on time and in quality reporting of all global parallel projects and ensure pro-active information sharing with stakeholders
- Manage project delivery (for the projects under direct responsibility) identifying and mitigating risks proactively and ensure GxP, SOX and NFCM compliance.
- Plan and orchestrate tollgate reviews and signoffs as per LDC methodology.
- Mobilize and engage internal and external stakeholder support ensuring all dependencies for a successful delivery of projects are addressed.
- Establish solid and efficient project reviews for ensuring high quality deliverables per plan.
- Manage detailed plan, status, risk, and issues.
- Lead project and service transitions.
- Manage overall budget of the parallel projects within Core enablement team
- Lead continuous assessment and management of dependencies with projects outside of LDC program (parallel projects).

Commitment to Diversity & Inclusion: :

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

What you'll bring to the role:

- 10+ years of experience where at least 8 years of experience is associated with project management and delivery in ERP (preferable SAP) ecosystem with GxP, SOX and NFCM relevance.
- Extensive functional, technical experience with tools like JIRA, HPQC-ALM and MS-Project is mandatory.
- 8 or more years in roles having accountability for the delivery of multiple teams is preferred.
- Experience demonstrating effective working with distributed or off-shore teams is essential.
- Very strong written and verbal English is minimum requirement. Additional major languages desirable.

Desirable requirements:

- University degree in Computer Science, Information Management or related discipline; or other degree with significant work experience in similar disciplines.
